

CLEAR WATER VALUE

Our vision is to enhance public health and sustainability, by constantly creating new value from water. At WFI we provide water treatment and reuse solutions based on the notion of a circular economy. We develop cutting-edge technologies, delivering high quality clean water, bringing value and peace of mind to municipalities, decentralized communities, agricultural and industrial plants around the world.

WATER VALUE CREATORS

At WFI, we care deeply about global water scarcity and are committed to tackling the world's toughest water treatment issues. WFI enables customers to mitigate risk and improve return on investment by offering value creation opportunities in terms of water, time and cost savings as well as new revenue streams. By using our proprietary technologies, creative thinking, economical approach and top-notch project management expertise, our customers transform contaminated water into high quality clean water for a variety of sources and purposes. We offer long-term investment in R&D, together with a 'can-do' approach, genuine care and drive. With a proven track record over the past 10 years, we address water challenges, creating more valuable water for humanity.

3000 M³/HR
INSTALLED CAPACITY

90-98%

ENERGY SAVINGS

FOUR BUSINESS UNITS, ONE VISION

WFI creates new value from water, enhancing sustainability and improving public health. We are considered an innovation leader in water technologies, providing comprehensive water treatment solutions through our four business units.

TRIPLET

SIMPLIFY WATER REUSE

Making biological wastewater treatment simple and valuable for municipal & agricultural use, enabling affordable clean water

TOXSORB

RENEW WATER VALUE

Converting polluted water from a variety of sources into valuable assets, delivering high quality water for drinking & industrial purposes

ROTECH

CHALLENGE THE FLOW

Ultra-high recovery retrofit & turnkey RO desalination solutions - robust, optimized, cost-effective and risk-free

AST

OUTPERFORM WATER

Holistic engineering, integration & project management services, delivering high quality water with clear eco value

A TRUSTED GLOBAL WATER PARTNER

Established over a decade ago and backed by US shareholders, WFI is a solid financial and professional partner. Our team comprises scientists, engineers, field integrators and managers with decades of accumulated experience and know-how from projects on 5 continents operating according to ISO, MoH and NSF approvals. WFI offers customer tailored, economical solutions and takes full responsibility for the entire project, from concept through development to the commercial solution and deployment. With headquarters in Israel, and representatives in the US, Africa, China and Europe, we have the capabilities to solve water issues almost anywhere in the world. Our customers include: Coca Cola, Jacobs, Strauss Group, Nestle, WSC Malta, PUB Singapore, Suez, Kurita, MSI US, Teva, Mekorot, and the IDF, as well as municipalities, councils, agricultural and industrial plants, tourist sites and more.
